Luxurious but laid-back,

Lantana is a collection of ocean-view homes and flats built into the hillside just east of Beach Town, the urban center of car-free Las Catalinas, Costa Rica. Lantana's stair-street architecture is based on the precedent of medieval Mediterranean hill towns. The flowering plant that is the neighborhood's namesake blooms among the Residences.

Lantana is designed for those seeking activity, adventure, and the outdoors. Surrounded by 1,000 acres of preserved tropical dry forest, Lantana provides easy access to world-class mountain biking and hiking trails. Swimming, snorkeling, diving, paddle-boarding, and other water sports can be enjoyed at two idyllic beaches, Playa Danta and Playa Dantita, both immediately accessible in Las Catalinas.

Lantana is made not just for living, but for living fully. Private terraces are only steps from neighbors and opportunities to gather. In Las Catalinas, where pedestrian life is the priority, private and public spaces interlace, increasing social interaction. Beach Town, just west of Lantana, is an amenity in itself, offering fine and casual dining, entertainment, shopping, and services.
